

Insights Club Newsletter

Surrounded by Data, Starved for Insights!

VIT Bhopal University

VIT Bhopal University, established in 2017 is a new latitude to give your thoughts and ideas an unimagined horizon. From various student clubs to integrating CALTech in day-to-day teaching with 100% doctorate faculty, VIT Bhopal believes in and supports the overall development of a student with excellent guidance and supervision.

VIT secured 12th rank as the best research and engineering institution in India in the 2022 NIRF ranking published by the Indian Ministry of Education.

To add to the achievements, VIT was ranked 9th in the university category in India, 10th in the research category, 18th in the overall criteria, and last but not least National Assessment and Accreditation Council (NAAC) has accredited VIT with the highest-grade A++ in 2021 (4th cycle).

*"A place to learn;
A chance to grow"*

Heartiest congratulations to each and every individual of the Insights Club for bringing such a platform that will portray a better picture of VIT Bhopal University's potential, endeavors and excellence in every field and will benefit the academics of the university at large.

We appreciate the amount of interest and enthusiasm from club members and their consistent efforts to produce the first official newsletter.

We believe that Insights Club will trigger and bring out the hidden talents of every VIT-BHOPAL University student across the globe.

Dr. G. Viswanathan

Founder & Chancellor, VIT University

Mr. Sankar Viswanathan
VP, VIT Bhopal University

Ms. Kadhambari S. Viswanathan
AVP, VIT Bhopal University

Insights Club

"INSIGHTS" is a journalistic community club. Our goal is to create and distribute reports about the interactions of events, facts, and ideas that are "the news of the day". The speciality of the Insights club will be to provide a bi-weekly newsletter that sums up all the ongoing, upcoming, and completed events, seminars, fests, etc.

Objective

Insight Club's objective is to provide a uniform flow of information directly and through the students of our university regarding all the events

and current affairs of the university through online mode (web/socials) and on-field journalism. We intend to hold certain intra-campus events where students from any branch and campus are welcome to participate.

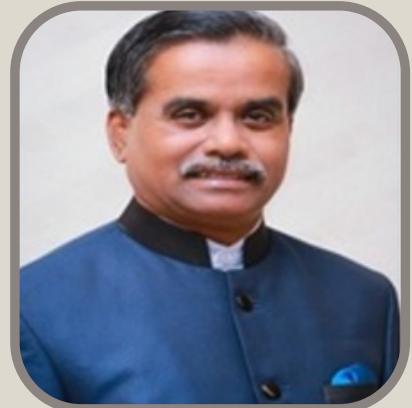

The club will also focus on improving abilities that will stimulate the creation of innovative media messages.

I am delighted to know that "Insights Club" (a journalism related Club) is inaugurated at our University with an objective to give fun and educational chance to students to enhance their understanding of journalism and to motivate their interest in the process of obtaining, evaluating, generating, and presenting information. I am happy to note that the club will create and distribute reports about the interactions of events, facts, ideas, and people that are news of the day, and that informs society to at least some level. The club will also hold certain intra-campus events in which students from any branch and campus are welcome to participate and showcase their talents.

I wish the club and its members all the best in their endeavour and make excellent contributions to upskill the talents of the students.

**- Dr. Kamachi Mudali,
Vice Chancellor**

On this auspicious occasion, I am pleased to know that the Insight Club is acknowledging their travel. I congratulate the efforts put forward by the club faculty coordinator, Mr. Sandeep Sahu and their club team to release their first newsletter.

Dear Students, every individual is talented. I believe the Insights Club will trigger and bring out the hidden talents of every student at VIT- BHOPAL University around the globe.

Once again, I appreciate all the people behind this Insights Club.
"Hard work and exposure make you happy."

I wish all the best to the Insights Club in all its future endeavors.

**- Dr. George Chandran,
Director of Student Welfare**

Finally, we have an "Official newsletter"!

VIT-BHOPAL University was established in 2017 and continues to diversify each year to improve the country's higher technological education, research, and industrial consultancy.

The goal of a newsletter is to evaluate our constant endeavours at every step which eventually helps us to know our progress and accomplishments in a better way. It facilitates a better understanding and visibility for the readers to know the universities stature and contributions in varied disciplines and domains.

I must express my gratitude to the VIT management, our Vice-Chancellor sir and the Director of Students Welfare for their approval and for providing us with essential infrastructure support in initiating the club activities.

I must congratulate all the Insights Club members for their rigorous efforts to release the first official newsletter.

**-Mr. Sandeep Sahu,
Faculty Co-ordinator, Insights Club**

I congratulate every individual from the Insights club to bring such a platform that will portray a better picture of the potential, endeavours, and excellence of VIT Bhopal University in every domain.

This attempt will surely develop a better understanding of the university among people around the globe through different mass-media platforms.

I must appreciate the amount of interest and enthusiasm shown by the club members in bringing the best output for the overall benefit of the university academia.

I wish that the Insights Club brings a lot of glory to the universities reputation.

**-Dr. Atul Aman,
Faculty Co-coordinator, Insights Club**

Awards & Achievements

Placements

Excellence has been the trademark of VIT Bhopal, and in this regard, the placement cell this year brought several crucial selections from different batches. Under the "Mechanics" category of the 2019 batch, students Varun A. Vyas, Sanchith Krishnan, Monotosh Dey, and Ayush Parmar developed a game, "The NightVeil Hold," which was ranked 78th out of 952 in the worldwide Game Jam 2022 event. Three of the 2019 batch students, Smriti Panda, Atishay Jain, and Sugam Jain, have been selected for the Taiwan Experience Education Program with a deal scholarship. Four of our Cyber Security students from the 2019 batch, Ghanishth Goyal, Aarushi Koolwal, Oorja Rungta, and Saloni Gupta, received the opportunity to attend the International WiCyS 2022 Conference in Cleveland, Ohio, USA. Microsoft Engage program is one of the most prominent selection drives by Microsoft. Five of our students got selected for the 2020 and the 2019 batch. The following two German universities have extended admission offers to our student, Mr. R. Sai Vaishnav, for a Master's: Albert Ludwig University in Freiburg and Uni Siegen.

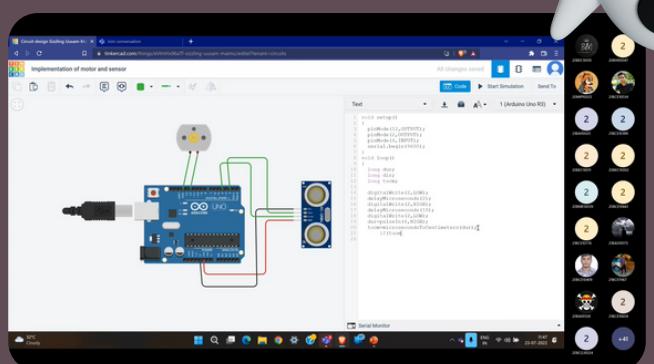

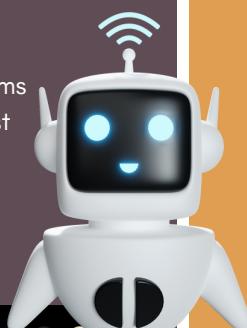

Robothon

The VIT Bhopal robotics club organized a workshop and competition open to all students at the university.

Ashutosh Mishra, Himesh Kohed and Biswayan Mazumdar also shared their deep knowledge on Tinkercad. Of the 110 participants, 35 managed to steer clear of the scrutiny of the first round.

These brilliant minds will now have to face the perilous round 2 where the top performing teams will move on to the finale, after which they must make a presentation and explain their projects to the judges under 10 minutes.

VIT Stars Scheme

The VIT STARS Scheme assists students from underprivileged backgrounds in achieving what they deserve by waiving all fees for their academic and hostel needs, alongwith the cost of essential medical care.

Beginning with the 2019-2020 academic year, the VIT Bhopal University launched the STARS program in Madhya Pradesh to serve the students of rural areas who graduated from government schools with 12th-grade pass and extraordinary scores.

Honorable assistant vice president ma'am Ms. Kadhambari Vishwanathan successfully held STARS 2022 on the 23rd of July this year.

Events & Webinars

Ramanujan Mathematica and SAP Event

On 22 July 2022 (Friday), a new Club was inaugurated By VIT Bhopal, in the presence of Registrar Sir, Director of Student Welfare and other senior faculty members.

A Seminar on Cryptography and the magic of maths by Guest speaker Dr Dheerendra Mishra preceded this phenomenal event. An informational talk on How to cope with Mental Health by our online Guest speaker Mr Percival Holt was another splendid addition to the event where tips to cure and reduce Mental Stress were shared with the students. A unique Treasure Hunt followed this event which aimed to provide a basic idea of the features of the Club. The mission and Vision of the Club are to Enhance the understanding of mathematics, promote youth Development and develop Physical and Mental well-being among youngsters who are silently struggling in the world of Technology.

Sports Event

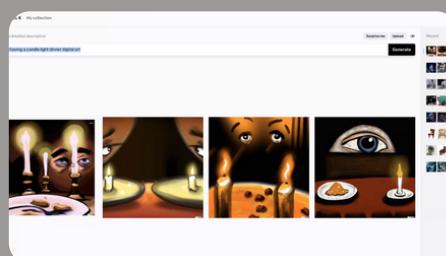

With the arrival of the 75th Independence day, the Sporting fraternity of VIT Bhopal held tournaments where students actively participated. There were solo events where students demonstrated their skills and team events where the spark of competition was not amongst students but different branches, the Gaming team and the CSE core team reached the finals, where the CSE core team won the tournament with a margin of one point. The badminton tournament saw enthusiastic participation from students as well meanwhile heavy rains brought disappointing news for cricket enthusiasts, as adverse weather conditions forced the cancellation of the cricket tournament. The event managers have planned to conduct the matches next month.

The Football tournament and Volleyball tournaments have not begun yet.

ML Webinar Event

The VIT Bhopal Data Science Club organized a Machine Learning Webinar which covered all the crucial aspects of AI and ML. The online event helped facilitate maximum student participation, and the speaker for this event was a renowned author, entrepreneur, and career coach expert in ML, Mr Rajeev Kanth.

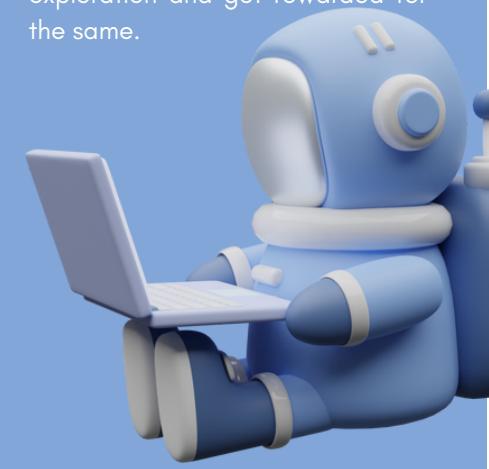

The main topics covered in the discussion included the advantages of incorporating AI into our technologies. The definition of ML was beautifully defined as "DATA + MATH + CODE = ML".

The webinar concluded on an optimistic tone and students provided excellent feedback on their learning and suggestions from the speaker.

SEDS Nebula Event

SEDS Nebula Chapter held The July Symposium on the 16th and 17th of July for the students to understand their prospects in commercial space.

The first day of the event consisted of three separate talk sessions in which Dr Shreya Santra, Prasad Doke, Sunny Kabrawala, and Sahith Reddy Madara talked about the role of startups and the impact of public-private partnerships on the space sector, a competition was held for the students as well where they presented their ideas on the future of engineering in space exploration and got rewarded for the same.

It was strange how she found out,
One moment she didn't know,
The next minute she did,
One minute she was a caged bird,
The next minute the lioness, fierce
and free.

— Poetry —

Don't Quit

Quitting is not an option,
and will never be.
When things go wrong,
as sometimes they will,
don't lose hope
as what you preached for is near,
but may seem a little far.
all you need is a little rest,
to figure out.
as you didn't live
all these years to just,
one day think of quitting
everything you worked hard for.
It's just like a disease,
Which breaks you
Makes you lose hope.
But you must grab your rope,
Rope of life, success, confidence.
And start from where you left,
as it's never too late.
So, Don't let that disease
make home in you
Because
quitting is not an option,
and will never be.

-Aarushi Jain
